

Kmit KESHAV MEMORIAL INSTITUTE OF TECHNOLOGY

(AN AUTONOMOUS INSTITUTE)

Approved by AICTE, Affiliated to JNTUH, Hyderabad-500029

II- B.Tech II Semester –RKR21-MID-I Examinations, May 2024

Subject: JAVA PROGRAMMING

Branch: CSE

Duration: 60 Min.

Date: 06-05-2024 AN

Max. Marks: 10

Answer any TWO from the following Questions

Q.No.	Questions	Marks	CO	BL
1.a)	Write about java Buzz words.	2	1	1
b)	What is inheritance in Java, and how does it promote code reusability with an example program ?	3	1	2
2.a)	Describe toString() and super key word in java with an example program.	2	1	2
b)	How does Java support multiple inheritance through interfaces?	3	1	2
3. a)	How are packages imported and used in Java classes. Explain with an example program?	2	2	2
b)	Explain file reading and copy it into another file with example program.	3	3	3
4.	Define Serialization & De-serialization? Write a Java Code for Serialization of an Employee class contains Employee number, Aadhar Number, Name, age and make use of transient keyword for Aadhar number	5	3	3

**KESHAV MEMORIAL INSTITUTE OF TECHNOLOGY****(AN AUTONOMOUS INSTITUTE)**

Approved by AICTE, Affiliated to JNTUH, Hyderabad-500029

II- B.Tech II Semester –RKR21-MID-I Examinations, May 2024

Subject: JAVA PROGRAMMING

Date: 06-05-2024 FN

Branch: IT, CSE (AI&ML), CSE (DS)

Duration: 60 Min.

Max Marks: 10

Answer any TWO from the following Questions

Q.No.	Questions	Marks	CO	BL
1.a)	Describe Overloading methods & Constructors.	2	1	1
b)	List and explain the types of Arrays used in java. Also describe the syntax of the Arrays with suitable illustration	3	1	1
2.a)	Explain runtime polymorphism with example program?	2	1	2
b)	Explain the following methods of String class and write a java program illustrating the methods – contains (),String.valueOf(), Character.toCharArray(), charAt(), concat(), length()	3	1	3
3. a)	Differentiate between abstract and concrete classes? Provide concise example to illustrate key concepts of abstract class.	2	1	2
b)	How to define packages in java? Explain the ways to set class path in the context of packages?	3	2	2
4.a)	What are I/O streams in Java and demonstrate the usage of FileInputStream and FileOutputStream.	2	3	2
b)	Explain file reading and copy it into another file with example program.	3	3	3

(AN AUTONOMOUS INSTITUTE)

Approved by AICTE, Affiliated to JNTUH, Hyderabad-500029

II- B.Tech II Semester –KR21-MID 1 Examinations, May / June 2023

Subject: Java Programming

Date: 31-05-2023 (AN)

Branch: CSE/ IT/AIML/DS

Duration: 70 Min.

Max. Marks: 10

Answer any TWO from the following Questions

Q. No.	Questions	Marks	CO	BL
1.a)	Illustrate in detail one-dimensional and multi-dimensional arrays with suitable examples.	3	1	2
b)	Explain implicit and explicit type casting.	2	1	2
2.a)	Explain method overriding. Write a java program which explains method overriding.	3	1	2
b)	Demonstrate String methods with example.	2	1	2
3. a)	Define multiple inheritance. Does java support multiple inheritance? Justify your answer.	3	1	5
b)	What is the significance of the CLASSPATH environment variable in creating/using a package?	2	2	1
4.	Explain byte streams and character streams. Demonstrate how to read a byte at a time from the file and display on the output screen.	5	3	2

Approved by AICTE, Affiliated to JNTUH, Hyderabad-500029

II- B. Tech II Semester RKR21-MID-II Examinations, JULY 2024

Subject: Java Programming

Date: 26-07-2024 FN

Branch: IT, CSE (AI & ML), CSE (DS)

Duration: 60 Min.

Max. Marks: 10

Answer any TWO from the following Questions

Q.No.	Questions	Marks	CO	BL
1.a)	What is the purpose of the finally block?	2	3	1
b)	Design a custom exception class called InvalidInputException. When thrown, it should indicate that the user provided invalid input (e.g., negative value). Write a program that accepts user input (e.g., an integer) and throws this exception if the input is invalid.	3	3	3
2.	Design and implement the producer and consumer threads, ensuring correct behavior and efficient use of the buffer.	5	5	3
3.a)	Describe the process of accessing collection through iterator.	2	4	2
b)	Differentiate between ArrayList, LinkedList and a Vector. Why ArrayList is faster than Vector? Explain.	3	4	2
4.a)	What is the difference between Statement and Prepared Statement?	2	5	1
b)	Consider 'Students' table with columns ID, name, and age. Write a java program that inserts a student record into 'Students' table by establishing the connection to MySQL database.	3	5	3

KESHAV MEMORIAL INSTITUTE OF TECHNOLOGY

Approved by AICTE, Affiliated to JNTUH, Hyderabad-500029

II- B.Tech II Semester –RKR21-MID-II Examinations, JULY 2024

Subject: Java Programming

Branch : CSE

Duration: 60 Min.

Date: 26-07-2024 AN

Max. Marks: 10

Answer any TWO from the following Questions

Q.No.	Questions	Marks	CO	BL
1.a)	Differentiate between Checked and Unchecked Exceptions with examples	2	3	1
b)	Design a custom exception class in Java that represents an 'InsufficientFundsException.' When thrown, this exception should indicate that a bank account has insufficient funds for a requested transaction (e.g., withdrawal). Include an appropriate error message	3	3	3
2.a)	Explain the ways to create a thread in java.	2	5	2
b)	Create a Java program that concurrently prints multiplication tables for two given numbers. Each table should be printed by a separate thread.	3	5	3
3.a)	Write a java program to store the student details in an Array and display the student details in ascending order of their GPA. Create 'Student' class with three instance variables student id,name and GPA by implementing Comparable interface.	5	4	3
4.a)	Explain JDBC Drivers.	2	5	2
b)	Consider 'Students' table with columns ID, name, and age. Write a java program that retrieves all student records and displays them by establishing the connection to MySQL database.	3	5	3

KESHAV MEMORIAL INSTITUTE OF TECHNOLOGY

Approved by AICTE, Affiliated to JNTUH, Hyderabad-500029

II B.Tech II Semester –KR21-MID-II Examinations, August 2023

Subject: **Java Programming**

Branch: CSE, IT, AI&ML, DS

Duration: 70 Min.

Date: **03-08-2023 (AN)**

Max. Marks: **10**

Answer any TWO from the following Questions

Q.No.	Questions	Marks	CO	BL
1.	What is Inter thread communication and explain it. And also describe thread synchronization.	5	3	2
2.	Write a sample java code to demonstrate the following classes. a) Vector class b) Stack class c) Dictionary and Hash table classes d) Scanner class	5	4	3
3.	Explain types of JDBC Drivers. Explain Type 4 Driver with suitable illustration	5	5	2
4.	Write a java program to store the student details in an Array and display the student details in ascending order of their GPA. Create 'Student' class with three instance variables student id, name and GPA by implementing Comparable interface.	5	4	2
